WHAT WE WILL SEE

Malawi and Zambia slow tour in the safari land. In **South Luangwa National Park**, the heart of a charming ecosystem that boasts antelopes, zebras, buffaloes, elephants and an abundance of predators: lions, jackals, hyenas, cheetahs, small herds of wild dogs now endangered, and not least and relatively easy to spot, the leopard. We will live the thrill of a safari in close contact with the environment; in **Liwonde National Park**, which boasts high density of elephants, antelopes, buffalo and abundance of crocodiles, hundreds of species of birds inhabit the park: a real ornithological paradise.

On the magical Shire River we will explore the territory in harmony with the rhythms of nature.

On **Lake Malawi**, the 'lake of stars', one of the largest in the Rift Valley, to breathe the atmosphere of the villages, markets and the amazing hospitality of local people and within the **Senga Hills Forest Reserve**, combining the beach the chance to spot some species rarely seen elsewhere as the hyrax, inserted in a rare beauty with one of the most beautiful bays on Lake Malawi.

Malawi is indeed a warm and welcoming country: its people have a warm and hospitable heart that in no other country in Africa we have ever heard.

Away from tourism, despite the poignant beauty of its landscape, its hospitable and incredibly friendly people, the kilometers of pristine beaches of golden sand, Malawi is a country not yet discovered by tourism and this makes it even more fascinating.

THE TRAVEL - Expedition 01, Zambia and Malawi tour

ALL YEAR!

One of the most interesting aspects of the expedition is to live deeply in the different faces of these two countries, Malawi and Zambia, spending in a few days in unforgettable places; 11 are the nights you spend between the South Luangwa National Park and Liwonde National Park and Senga Hill Forest Reserve.

The South Luangwa National Park is the heart of a beautiful ecosystem that boasts antelopes, zebras, buffalos, elephants and an abundance of predators: lions, jackals, hyenas, cheetahs, small herds of wild dogs now endangered, and not least and relatively easy to spot the leopard. The park also hosts two rare endemic subspecies: the Thornicroft giraffe and Cookson wildebeest. A true paradise from the ornithological point of view with more than 700 species of birds. The park is famous for leopards: this solitary feline, though, it is difficult to spot, but during the night safari we will have more possibilities. Lions and hyenas are easy to spot. Here you will have the opportunity, in addition to classic jeep safari to experience a walking safari: one of the most picturesque and fascinating experiences that you can do in South Luangwa National Park, one of the few areas in Africa where it is allowed to do this activity.

The Liwonde National Park is the largest national park in Malawi. meanders along the legendary Shire River which has high density of elephants, antelopes such as Lichtenstein's hartebeest (*Alcelaphus lichtensteini*) and sable antelope (*Hippotragus niger*), buffalo, zebras, hyenas, warthogs, baboons and an abundance of hippos and crocodiles; hundreds of species of birds inhabit the park which is a real ornithological paradise. The vegetation is very diverse, ranging from forests of mopane, the palm trees, the grassland, the acacias while the hills dominate the forests of miombo. For this the Liwonde is the only place in Malawi, where the inseparable Lilian Lovebird (*Agapornis lilianae*) nests. The park is also an Important Bird Area (IBA) recognized internationally with significant populations of rare or endangered species. In this green season it will be easy to spot birds during the mating season of the broad-tailed paradise whydah. We also visit the Rhino Sanctuary, an important black rhino reintroduction project, the rhino is protected as an animal in danger of extinction.

Lake Malawi, the third largest lake in Africa, by the clear waters and white sands is a home to about 550 species of fish of beautiful colors. It is the natural habitat for many varieties of birds. Markets and villages are the perfect setting with their colors, their scents and the joy and the traditional hospitality of local people. Senga Hills Forest Reserve, combining the beach the possibility of spotting some species rarely seen elsewhere as the hyrax, inserted in a rare beauty with one of the most beautiful bays on Lake Malawi.

The major African cities with their amazing rhythms and contrasts, the colonial architecture and the magical atmosphere as the sun prepares the evening show of the sunset.

There will be stops in the villages, in the markets where we often stop to buy the excellent fruits!

If you want to extend you can extend the trip on the beautiful beaches of Lake Malawi.

A SAFARI GUIDE

The **game drive**, (the English definition that describes the excursion in 4 × 4 organised for the sighting of animals), will take place both day and night.

In S. Luangwa National Park is where the so-called "night drive" inside the park with an open 4 × 4 vehicle is authorized. It is not required to do any special preparation except the desire to get up at dawn and patience required in search of animals.

The boat safari on the Shire River is an exciting experience in the warm heart of Africa. A professional guide will accompany us for the duration of the safari to better enjoy the close contact with nature. The experience is very interesting especially for close point of view that you can enjoy boating; observing animals during their daily activity on the banks of the river is really a privilege for photography enthusiasts!

The walking safari is one of the most exciting and fascinating experiences that you can do in South Luangwa National Park, one of the few areas in Africa where it is allowed to do this activity. Accompanied by a professional guide and an armed ranger exploring a small area of the park to discover an unknown world of tracks, signs and smells and countless suggestions that only nature can offer. It is not required to have any physical preparation, but only the respect of a few simple rules dictated by the nature of the places.

Photographers during the safari will always be permitted to bring their own camera equipment. The guides will seek primarily to position the vehicle in the best position, where safety and security permits.

Then the vehicle must be in the right place at the right time to see what you want; we prefer that a sanctuary of nature such as the South Luangwa preserve this spirit of adventure that so characterizes it. The South Luangwa has strict rules: after 20:00 it is forbidden to tour the park.

Important information: in the parks or in the camps, will be made to sign a disclaimer of responsibility required to access given the nature of the place.

The tour can be modified in terms of place and at any time for technical, organizational or security reasons without distorting the original plan.

TRAVEL PHILOSOPHY

We call our trips, “expeditions”, a word which seems to better encompass the spirit of adventure and discovery of wild places, the capacity of necessary adaptability and the desire of sharing this experience with others.

Our programs are carefully prepared and are born from our personal experiences over the years of the places where we spend most of the year. This allows us to share the knowledge of the environment and local communities to whoever wishes to experience an adventure rather than an organized trip. During our expeditions, we like to improvise, a ballgame in a small out-of-the-way village or take a break to taste the local cuisine, or stop to meander through the colorful stands of fruits and vegetables in an outdoor marketplace.

We don't travel with air conditioning observing Africa through closed windows, but we live breathing in the smells and even getting a little dirty from the red earth without thinking all day about how much further we're going, when will there be roads of asphalt or what will we eat for dinner that night.

We experience Africa smelling the atmosphere, absorbing the colors, experiencing the local fruit and vegetable markets, being surrounded by children on the road without prejudice.

People who travel with us are not just thinking about reaching a destination but about enjoying the infinite moments during the trip to appreciate the spectacular sights of Africa even when we stop and there is nothing to do. “Doing nothing” transforms your sense of hearing into listening and your sense of watching into seeing. We prefer to “lose” time in order to better appreciate the wonders of Africa.

We don't appreciate those who always want to know “what can we do for fun”, what activities or hobbies, when there really is nothing to do but wait for the sunset or for a lion to yawn: Africa has a different rhythm of life. We don't appreciate those who travels with their entire house in their suitcase and who wants to find all the comforts of home on the road; stress must stay at the airport because it does not fit with this continent.

Who are appalled and shocked at a local food dish or who cry because there is no hot water need not apply; these are luxuries we give up in respect for the communities of a Continent that suffers poverty and underdevelopment.

We don't appreciate those who do not have respect for animals or nature, who waste water, energy and resources without environmental respect, who does not ask for help and does not give help and who does not take care of our equipment.

This is our philosophy: think like us and you will be rewarded.

TRAVEL TIPS

HEALTH

No obligation to vaccination.

We recommend these vaccines:

- tetanus
- typhoid fever
- hepatitis A and B

Concerning malaria, disease transmitted by the bite of the female Anopheles mosquito, its prevention is accomplished, first of all, with a mechanic prevention i.e. avoiding getting stung, following these rules:

- sleeping under mosquito tents
- using insecticide to get rid of possible mosquitos
- after sunset, when mosquitos are more active, avoiding leaving parts of the body uncovered, wearing light-coloured long trousers and long-sleeve shirts, because dark colours attract mosquitos and spraying parts of the body uncovered with Autan Extreme

For the use of any possible antimalarial drugs we suggest that you consult your Public Health Service; health norms change very rapidly.

TRAVEL MEDICAL KIT

We suggest that you take with you a small supply of these medicines:

- analgesics/fever reducers: acetylsalicylic acid and nimesulide
- antibiotics like ciproxin or amoxicillin or clavulanic acid
- antimalarials: anyway carry with you 2 packs of Lariam for emergency cases
- antidiarrheals: loperamide or kaolin in case of symptoms (to use only if really necessary!)
- rehydration salts: in case of fluid leaks
- against car or air sickness: a pack of pills or chewing-gums
- antihistamines: in case of allergic reactions
- scissors, tweezers and thermometer
- suntan cream
- insecticides (like Autan Extreme)

LUGGAGE

Due to space and cohabitation reasons each person shall have just a big backpack (max 15 kg), with max. dimensions 30x40x50 cm (60 liters) besides a standard small bag with photographic equipment.

We recommend that you comply with the dimensions.

We recommend mountain backpacks with shoulder straps.

ECO TOURISM

AFRICA WILD TRUCK SUPPORT

Africa Wild Truck travel philosophy has the aim to minimize the potential negative impacts that derive from tourism socially, economically and environmentally. We know that tourism has got a big potential of bring benefits in remote areas as economical growth, develop and conservation. Travel in a responsible way means follow a specific travel philosophy that we hope is useful to preserve the beauty and the culture of this marvellous Continent to future generations.

SOCIAL COMMITMENT

We think that the contact with local people and cultures is one of the essential aspects of a travel. Comprehension, tolerance and mutual respect between different cultures often mean also simple rules to follow that will be exposed to the traveler before as well as during the travel. We encourage the traveler to have an open attitude and learn customs and traditions, as well as basic words in local language.

We live here and we give local people a job so that travelers, once more, may have the possibility to interact with African people and so that money is directed to the population.

We support some territorial and social maintenance projects, both directly, involving our travelers into donating to AROUND AWT and indirectly, visiting distant areas bringing economic development and suggesting to donate one's own contribution to projects as conservation or social projects

We are supporting associates and members of associations like AITR, Italian Association for Responsible Tourism and TIES, International Ecotourism Society.

We live here so we have the possibility to monitoring the political and social situation of our destinations, communicating, if possible, all relevant information to travelers before leaving.

ECONOMIC COMMITMENT

We lean on suppliers, products and services representing the option that is the most ethical available, even when it means paying a price reasonably higher compared to other options on the market.

We use accommodations which are chosen carefully, following an idea of conservation of the territory and sustainability of the travel, preferring positions in close contact with nature. Where possible we lean on small accommodations managed by local people that live on the territory, like us.

We don't lean on facilities or suppliers where we know there is exploitation of labor.

Where possible we stock up in the markets, buying fruit and vegetables directly from small producers, thereby supporting small economies.

We encourage travelers to buy local artifacts that do not harm the environment and that do not support illegal trafficking.

ENVIRONMENTAL COMMITMENT

• We use the Internet and e-mails as main means of communication; this minimizes the waste associated with the use of printed paper.

We use, where possible, recycled paper for all our printed releases.

We support and donate part of our takings to organizations like AROUND AWT and other associations also through the programming of the travels/expeditions. We are members of the TIES, International Ecotourism Society and of AITR, Italian Association for Responsible Tourism.

We minimize the waste like electric energy and water using the truck's batteries to recharge the electric material and managing the reserves of water in an accurate way.

We recycle: nothing is thrown away in Africa! Where possible we deliver part of what we think is no longer useful, to those who need it. Besides we follow, where possible, this simple rule: what in Africa is harmful for the environment and cannot be recycled must be taken back home! Used batteries are a simple example.

We use small facilities that minimize negative impacts on the environment. We lean, where possible, on facilities built with local materials, as well as facilities that use renewable sources of energy like solar panels.

YOUR SUPPORT

Inform on your travel destination before leaving. Read books and consult tourism guides to collect information on culture, politics, geography, religion and traditions of the places you are going to visit. Learn a few basic words you'll need to communicate; sometimes a few words can make you get on touch more with the local culture. Inform on how to behave to respect customs and beliefs.

Dress in a respectful way. It's really easy to cause embarrassment or offend with an inappropriate clothing.

Buy local objects and use local services; this increases the local economy. But be careful what you buy: do not feed illegal trafficking or types of trade that are harmful to nature.

Pay a fair price for what you buy. Negotiating is always part of the local life; small sums of money mean big sums for a local family.

Ask permission before taking photographs and if you promise someone to send a photo, or a gift, please, keep your promise.

Avoid showing wealth and opulence especially in poor communities, where you are a guest.

Help local communities supporting development projects, rather than giving huge tips to individuals. Together we can develop new ideas. Take a look at the projects we support like AROUND AWT.

If you want to leave something, as for example giving material to a local school, or cloths to whom needs them, try to give them to an influential person. In this way the material will be divided as fairly as possible. Do not give money or medicines to individuals: we know projects to which we can give this type of material.

Never feed wild animals, especially within the parks: wild animals have not to depend on man for their subsistence.

Respect the environment: avoid leaving garbage around and if you smoke, please, do not leave your cigarette butts.

Once home think how you can help the development programs to help the country you've had the privilege to visit. Choose a Tour Operator that follows a travel philosophy that supports eco-tourism.

We support some social maintenance projects, through scientific popularization, writing guides and articles, photography, donations, our projects of AROUND AWT, visiting distant areas and so bringing economic development; if you know topics, groups, projects we don't know share them with us: we can support them and ensure that many people may be involved.
